Concept

Basics

The conceptual design of DREAMS is based upon the very special facilities and scenic amenities of the Verdant Hall in Panglao Island Nature Resort.

The very impressive location with its typical excotic view and inspiring atmosphere generates dreams of an exotic paradise at once.

On the other hand the location is spacy enough to create different areas for the performance.

The show will operate with one stage for the live-band and a bigger stage for the show-acts, that will also be performed among the audience.

Considering the visionary title "DREAMS" the lighting and the sound will be very important factors for the whole show. Therefor it will work with a professional light- and sound-system to illuminate the whole area and to add some thrilling moving light-effects to underline the atmosphere of the different show-parts.

To achieve the special imaginations DREAMS will use the wide spectrum of professional video-projections.

All videos shown during the show will be created only for this event.

All parts of the show will be performed by members of the Boholano Community Europe and young artists from Bohol.

FINAL

PART ONE - CHILDRENS' FANTASIES

Childrens' Fantasies evoke the innocent and unlimited dreams of children. In all of every human being there is still a small child and we are touched when we are recalled to our own childhood vividly.

Music and light of this part take the audience into the world of Jumanji, Harry Potter and The Lion King. Lay back, relax and follow the show over the rainbow into the adventure-land.

*

PART TWO - THE UNIVERSE OF SOUND

The most famous composer of the world always discovered the universe of sound a little bit more during their life and added new and unexpected views to the existing composing technologies at their times. And a lot of modern Pop-hits are in fact nothing else then classic notes.

Dreams presents a medley of some of the most famous classical compositions and the modern counterpieces. A great musical surprise.

*

PART THREE - THE SECRETS OF THE MASKS

Masks always played an important role in mankind during all centuries. They allow to hide the daily existence and slip into another character at the same time. A fascinating imagination.

During this part the "Phantom of the Opera" appears as well as "Cats" and the world famous typical masks of the "Carnevale di Venezia".

PART FOUR - THE LOST OF INNOCENCE

Every part of the human life is influenced by erotic fantasies. No matter if female or male. In advertisement, marketing, design and even in the daily life. No matter if we agree or not.

And of course DREAMS takes a look behind the forbidden door too. But lead the audience back to remorse - back to the point of return.
Just relax and breathe deep.

*

PART FIVE - ONE WORLD. ONE VISION.

"Maybe I'm a dreamer, but I am not the only one" - a famous line out of the well-known song 'Imagine'. But a very truthful word. Humans may be of different colours, but all are humans and all have the same vision.

DREAMS demonstrates in haunting and entertaining videos how beautiful and fragile our planet is. And the live performance let the audience realize how easily all humans will be able to be one big family of the world.
What a wonderful world!

*

FINAL

Following the fifth showpart it is the aim of the FINAL to unite the audience in one big group of actors. They will feel the spirit of "Oh Happy Day".

Live Band

DREAMS will present one of the best live bands that will be available in Bohol or the Visayas. The Boholano Community Europe is already in negotiations with some bandleaders.

The lifeband will perform between the different showparts so that the actors of the show have time to change the costumes. In addition - the audience will be animated to move their own bodies. The band will do its best to let the rythm influence the people.

DREAMS is a production of the BOHOLANO COMMUNITY EUROPE.
